Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Thursday 04 Mar 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cloudy with outbreaks of rain but becoming colder and clearer.

Today:
A largely cloudy start with fog patches in the east. Through the day a band of showery rain moves south across the region, with clearer and chillier conditions following. Maximum temperature 8 deg C (46 deg F).

Tonight:
During the evening and overnight clear spells develop widely. A cold and dry night for all, with a widespread overnight frost. Minimum temperature -4 deg C (25 deg F).

Friday:
A cold and frosty morning with plenty of sunny spells throughout Friday. Remaining dry for most but the odd shower possible in the east. Feeling chilly, with an overnight frost. Maximum temperature 8 deg C (46 deg F).

Outlook for Saturday to Monday:
Dry with sunny spells on Saturday. Turning gradually cloudy on Sunday. Outbreaks of rain, at times heavy on Monday with strengthening winds.
